

Node js & API via Axios assignment

1. Learn the basic format and installation for Axios
(<https://medium.com/@reggiecheston/a-beginners-guide-to-using-axios-in-node-js-simplifying-http-requests-441291fef064>) package
2. Integrate your code (SQL_NODE project) with Grocery Store API in the relevant areas
for example see the attached architecture

3. Bonus: add it to more areas in your code.
